🚀 SUMMARY

I'm a **front-end developer** turning ideas into smooth, intuitive web experiences. I specialize in **Next.js, React.js, JavaScript, and modern front-end technologies,** creating **fast, responsive, and visually appealing applications**. I love solving challenges, **optimizing performance**, and making interfaces feel effortless for users. Whether it's **redesigning a CMS for better usability, integrating APIs, or fine-tuning a site's responsiveness**, I focus on **clean, maintainable code** and **seamless user experiences**. Always curious and eager to learn, I keep up with the latest trends to build **better, smarter web applications.**

💼 WORK EXPERIENCE

TriTim   March 2023 – Present
Front end developer   📍 *Ljubljana, Slovenia*

- Led the **redesign and development of the CMS front end**, leading to a **35% increase in user satisfaction** and a **more intuitive experience**.
  Refactored the CMS front-end code and built a **fully responsive layout**, boosting **mobile engagement by 25%**.
- **Integrated third-party APIs** (payment gateways, social media, cloud services), expanding **application capabilities**.
- Delivered a **smooth cross-browser and cross-device experience**.

Studio Mazzini   Dec 2021 – Feb 2023
Web developer   📍 *Ljubljana, Slovenia*

- Designed and developed a **custom WordPress starter theme** using the **Options API**, cutting development time by **50%**.
- Built **responsive, accessible, and dynamic web pages**, which significantly increased **mobile traffic and user interaction**.
- Developed a **fully responsive company website**, improving navigation and usability.
- Worked closely with **designers, developers, and project managers** to ship high-quality projects.

🧪 PROJECTS

- [Memphis](#) | *React.js*: App that recreates the look and feel of Windows 98, built as a playground to explore JavaScript game development, UI logic, and experiment with new tools and libraries.
- [CovrLettr](#) | *Next.js + Contentful*: An AI-powered web app that generates custom cover letters from user input.

🎓 EDUCATION

B2 Higher vocational school   Sept 2021
EQF level 5   📍 *Ljubljana, Slovenia*

- **Information science engineer** (VI/1)
